About Alpha Cognition Inc.

Alpha Cognition Inc. is a commercial stage, biopharmaceutical company dedicated to developing treatments for patients suffering from neurodegenerative diseases, such as Alzheimer's disease and Cognitive Impairment with mild Traumatic Brain Injury ("mTBI"), an indication for which there are currently no approved treatment options.

ZUNVEYL® is a patented drug approved as a new generation acetylcholinesterase inhibitor for the treatment of Alzheimer's disease, with expected minimal gastrointestinal side effects. ZUNVEYL's active metabolite is differentiated from donepezil and rivastigmine in that it binds neuronal nicotinic receptors, most notably the alpha-7 subtype, which is known to have a positive effect on cognition. ALPHA-1062 is also being developed in combination with memantine to treat moderate to severe Alzheimer's dementia, and as an intranasal formulation for Cognitive Impairment with mTBI.

Forward-looking Statements

This press release contains forward-looking statements within the meaning of applicable U.S. and Canadian securities laws. Forward-looking statements are not historical facts and include, but are not limited to, statements regarding the timing of the Company's financial results announcement and conference call, the Company's commercialization activities, business strategy, market opportunities, product development plans, clinical development programs, regulatory activities and future operating performance. Forward-looking statements may be identified by words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "will," "would," and similar expressions, although not all forward-looking statements contain these identifying words.

Forward-looking statements are based on management's current expectations, assumptions and beliefs and involve known and unknown risks, uncertainties and other factors that could cause actual results, events or developments to differ materially from those expressed or implied by such forward-looking statements. Although the Company believes it has a reasonable basis for these forward-looking statements, it can give no assurance that such expectations will prove to be correct. Actual results may differ materially from those expressed or implied by these forward-looking statements.

Risks and uncertainties that could cause actual results to differ materially include, without limitation, risks related to the commercialization, market acceptance, reimbursement, pricing, distribution and sale of ZUNVEYL®, the Company's ability to maintain and protect its intellectual property, regulatory oversight and product safety matters, manufacturing and supply chain activities, the availability of adequate reimbursement coverage, competition from existing and future therapies, product liability exposure, the outcome of research and development activities, the results of clinical trials, the Company's ability to obtain additional regulatory approvals, and general economic, market and business conditions.

Additional information regarding these and other risks and uncertainties is contained in the Company's filings with the U.S. Securities and Exchange Commission ("SEC"), including the risk factors described in the Company's Annual Report on Form 10-K for the year ended December 31, 2025, subsequent Quarterly Reports on Form 10-Q, and other filings made with the SEC, as well as the Company's filings with Canadian securities regulatory authorities, each of which is available on the applicable regulatory websites.

The forward-looking statements contained in this press release are made as of the date hereof, and the Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.
